CREATING AN ARMY WITH THE MORTEM ET GLORIAM ARMY LISTS

Use the army lists to create your own customised armies using the Mortem et Gloriam Army Builder.

There are few **general rules** to follow:

1. An army must have at least 2 generals and can have no more than 4.
2. You must take at least the minimum of any troops noted and may not go beyond the maximum of any.
3. No army may have more than two generals who are Talented or better.
4. Unless specified otherwise, all elements in a UG must be classified identically. Unless specified otherwise, if an optional characteristic is taken, it must be taken by all the elements in the UG for which that optional characteristic is available.
5. Any UGs can be downgraded by one quality grade and/or by one shooting skill (Skilled to Experienced or Experienced to Unskilled) representing less strong, tired, or understrength troops. If any bases are downgraded all in the UG must be downgraded. So Average-Experienced skirmishers can always be downgraded to Poor-Unskilled.
6. Points are shown for troops with all mandatory characteristics applied. Points have been rounded to the nearest whole number. If quality or shooting skill is downgraded, then the points (including the points for any optional characteristics) will need to be adjusted.
7. An army entirely of Cavalry, Chariots, Camelry or Infantry with the Dismountable characteristic may choose the No Camp option.

Where **allies** are allowed, they must conform to the following rules:

1. An ally must be a minimum of 2 and a maximum of 4 UGs.
2. They must take enough UGs to get them to at least 50% of the minimums in the list being used.
3. They can thereafter take any troops up to the maximum to create the rest of the allied contingent.
4. Unless specified in the notes, the general must be the same type as the army commander in their own army's list but cannot be legendary.

Usually this results in 1-3 UGs being compulsory and you having full flexibility on the rest.

Where an **internal ally** is allowed, and no contingent is specified they must conform to the following rules:

1. Each internal ally must be a minimum of 2 and a maximum of 4 UGs.
2. The total number of troops taken of each type in the entire army must not exceed the maxima for that troop type.
3. They must take enough UGs to get them to at least 50% of the minimums in the list if there is enough allowance for a UG after the core army itself has taken the minimum. For example: An army has 4-12 cavalry (UG size 4,6) and 18-32 spearmen (UG size 6,8,9) as compulsory troops with 2 internal allies. The core army must take 4 cavalry and at least 18 spearmen. The first ally must take 4 cavalry and at least 9 spearmen. The second ally must take 4 cavalry but cannot take the 9 spearmen as this would exceed the 32 spearmen limit for the army.

4. If a list requires a proportion of a troop type to be upgraded or regraded, then the army as a whole must comply with this requirement. Internal allies do not have to comply these requirements. For example: $\frac{1}{4}$ to $\frac{3}{4}$ of Turcomans must be upgraded from Experienced to Skilled shooting. An internal ally might have all Experienced as long as the army as a whole has $\frac{1}{4}$ to $\frac{3}{4}$ Skilled.
5. They can thereafter take any troops up to the maximum to create the rest of the allied contingent.

Usually this results in 1-3 UGs being compulsory and you having full flexibility on the rest.

As a courtesy to your opponent when you deploy your troops, you should describe each UG fully; type, training, quality, protection, melee weaponry, shooting skill and weaponry, characteristics, and which ally if appropriate. You should also explain how any unusual troop types in your army function and any special rules including Stakes, Caltrops, Barricades and Obstacles and troop types such as Battle Wagons.

The easiest way to calculate points is to use the downloadable on-line army builder at www.mortem-et-gloriam.co.uk. Use this and all you do is use drop downs for the troop classifications and it does all the work for you. For those who prefer pen and paper, or who want to doodle some approximate designs before loading an army up, we have provided the points values with the lists. If a discrepancy exists in the points values between these lists and the army builder, then the army builder has the correct value.

FRIENDLY AND SCENARIO GAMES

Feel free to vary the troop classifications for friendly and scenario games. An interesting aspect of scenario games can be to see what the effect is from representing troops in a different manner.

HISTORICAL INTRODUCTION

Before contact with Europeans, the indigenous peoples of North America were divided into many different polities, from small bands of a few families to large empires. They lived in several "culture areas", which roughly correspond to geographic and biological zones and give a good indication of the main lifestyle or occupation of the people who lived there.

Although referring to the voyages of Christopher Columbus, the term Pre-Columbian is used to describe American indigenous cultures until Europeans either conquered or significantly influenced them. In Pre-Columbian America there were no horses or wheeled vehicles, but a series of sophisticated civilisations arose.

To the North American cultures, we have added army lists for several Oceanic cultures. Although canoes from the Pacific Northwest reached Hawaii and an Inca emperor may have visited Easter Island, there was no practical cultural exchange between the Polynesians and Melanesians and the Americas.

MAXIMUS ARMY LISTS

CALCULATING POINTS

Army points are calculated as follows:

GENERALS - MAXIMUS

Type of general	Army Commander		Sub-general		Ally general	
	Professional	Instinctive	Professional	Instinctive	Professional	Instinctive
Legendary	1600	1400	n/a	n/a	800	700
Talented	1100	900	850	700	650	600
Competent	700	550	600	450	300	250
Mediocre	250	0	400	250	100	50

CAMPS

Type of camp	Poor	Average	Superior
Unfortified	108	180	252
Fortified	216	360	504
Flexible	180	300	420
Mobile	126	210	294
No camp	378	N/A	N/A

A flexible camp is deployed as a fortified camp when defending and a mobile camp when invading.
No camp deploys a poor mobile camp when defending and no camp at all when invading.

UGs

For each UG multiply the cost shown in the list (adjusting for any optional characteristics) by the number of bases.

NOTES

1. Points values for skirmishers in Magna and Pacto are greater than in Maximus as SuGs shoot at full effect with only two ranks.
2. For further details on how points are calculated visit the Mortem et Gloriam website.

EASTERN WOODLAND CULTURE

900 TO 1500 CE

HISTORICAL NOTES

The Eastern Woodland culture consists of two main groups, the Algonquin, and the Iroquois. They often operated as confederacies of related tribes. Iroquian tribes included the Susquehannock in Pennsylvania, and Hurons of Canada.

TROOP NOTES

Warriors were armed with bows and mixed weapons. Large shields were depicted by Europeans.

MOUND-BUILDER CULTURE

900 TO 1500 CE

HISTORICAL NOTES

The Mound-Builder culture refers to North American tribes who constructed mounds for residential and ceremonial purposes. Towns were protected by palisades. Mound-Builder states were based on the south coast of the Great Lakes, the Ohio valley and the Mississippi valley. It includes the Natchez. Minor regional states existed in Florida, Georgia and elsewhere.

TROOP NOTES

Bows were in common use. The single-handed club was the most common melee weapon. Other weapons included spears. Shields provided protection.

PLAINS CULTURE

900 TO 1500 CE

HISTORICAL NOTES

Plains culture covered much of the west. Most tribes were nomadic. Tribes included the Lakota/Sioux, Assiniboine, Crow, Blackfeet, Arapaho, Cheyenne, and Gros Ventre.

TROOP NOTES

This era was prior to the introduction of the horse. Weapons included spears and clubs. Bows were also common. Shields and armour consisting of multiple layers of skins were used.

PUEBLO CULTURE

900 TO 1500 CE

HISTORICAL NOTES

The Pueblo culture dominated Arizona and New Mexico. Each tribe occupied rock or plaster palisaded towns (pueblos). The Pueblo peoples included Hopi, Zuni, Tewa, Tiwa, Pior, Tano and Pecos.

TROOP NOTES

Melee weapons included spears, clubs, and knives. Missile weapons included the atlatl, slings, bows and boomerang type missiles. Artwork shows shields of various sizes.

TU'I EMPIRE

950 TO 1500 CE

HISTORICAL NOTES

In 950 CE, Tu'i Tonga 'Aho'eitu started to expand his rule outside of Tonga. By the time it comes to the 10th Tu'i Tonga Momo, and his successor, 'Tu'itatui, the empire included parts of Fiji, parts of Samoa and islands from Tikopia in the west to Niue in the east. Tributes were extracted from chiefdoms. The success of the empire was based upon an imperial navy. In the 13th or 14th century Sāmoa defeated Tu'i Tonga Talakaifaiki under the lead of the Malietoa family. The successive leaders became more brutal in their attempts to sustain the empire.

TROOP NOTES

Fijians, Tongans, and Samoans used short, two-handed clubs and charged fiercely to close combat behind a hail of spears and weighted throwing clubs.

HAWAIIAN

1000 TO 1500 CE

HISTORICAL NOTES

Based on archaeological evidence, the Hawaiian Islands may have been inhabited from around 300 CE. It is possible that a second wave of migration occurred in the 11th century. The history of the islands is marked by a slow, steady growth in population and the size of the chiefdoms, which grew to encompass whole islands. Local chiefs, called ali 'i, ruled their settlements, and launched wars to extend their influence and defend their communities from predatory rivals. Ancient Hawaii was a caste-based society. A battle in 1738 reportedly involved an army of 8,440 men.

TROOP NOTES

Hawaiians used a spear up to six metres in length and used with two hands. Other weapons included javelins, a laau palau - a spear/club up to 3 metres in length used like a halberd and clubs. The sling was the only effective long-range weapon.

PACIFIC NORTHWEST CULTURE

1100 TO 1500 CE

HISTORICAL NOTES

The north-western tribes were active traders and practised slavery. Dominant nations included the Athapaskan, Tlingit, and Salishan.

TROOP NOTES

Missile weapons included bows and slings. Melee weapons included short heavy spears, daggers, and clubs. Shields were rare but body armour from elk skin or wood was common.

Totem-men were veteran warriors.

TIMUCUAN

1200 TO 1500 CE

HISTORICAL NOTES

The Timucuan lived in northern Florida and Georgia. They lived in palisaded villages.

TROOP NOTES

Later wood carvings show archers, protected on the flanks by warriors with more warriors in reserve. Warriors were armed with spears or two-handed clubs. Shields and wicker helmets are shown in some depictions.

MOA-HUNTER MAORI

1280 TO 1500 CE

HISTORICAL NOTES

New Zealand was apparently settled by Polynesians from the Society Islands in around 1280 CE. The Moa, a large flightless bird, formed a large part of the diet as tropical crops struggled to grow in the cooler New Zealand climate.

TROOP NOTES

Maoris favoured the taiaha, a long two-handed wooden sword with a sophisticated fencing technique.

SOUTHEASTERN WOODLAND CULTURE

1300 TO 1500 CE

HISTORICAL NOTES

Southeastern Woodland Culture refers to a range of tribes from various language/cultural groups who largely but not entirely superseded the Mound-Builder culture. Tribes or confederations included the Creek nation, Choctaw, Hitchiti-Creek, Muskogee-Creek, Chickasaw and Cherokee.

TROOP NOTES

Main weapons included bows, spears, and war-clubs. Some use of raw-hide armour and shields was made.
