*When I first accepted the commission of subduing Africa,  
I depended much less on the numbers or upon the bravery of my

## CREATING AN ARMY WITH THE MORTEM ET GLORIAM ARMY LISTS

Use the army lists to create your own customised armies using the Mortem et Gloriam Army Builder.

There are few **general rules** to follow:

1. An army must have at least 2 generals and can have no more than 4.
2. You must take at least the minimum of any troops noted and may not go beyond the maximum of any.
3. No army may have more than two generals who are Talented or better.
4. Unless specified otherwise, all elements in a UG must be classified identically. Unless specified otherwise, if an optional characteristic is taken, it must be taken by all the elements in the UG for which that optional characteristic is available.
5. Any UGs can be downgraded by one quality grade and/or by one shooting skill (Skilled to Experienced or Experienced to Unskilled) representing less strong, tired, or understrength troops. If any bases are downgraded all in the UG must be downgraded. So Average-Experienced skirmishers can always be downgraded to Poor-Unskilled.
6. Points are shown for troops with all mandatory characteristics applied. Points have been rounded to the nearest whole number. If quality or shooting skill is downgraded, then the points (including the points for any optional characteristics) will need to be adjusted.
7. An army entirely of Cavalry, Chariots, Camelry or Infantry with the Dismountable characteristic may choose the No Camp option.

Where **allies** are allowed, they must conform to the following rules:

1. An ally must be a minimum of 2 and a maximum of 4 UGs.
2. They must take enough UGs to get them to at least 50% of the minimums in the list being used.
3. They can thereafter take any troops up to the maximum to create the rest of the allied contingent.
4. Unless specified in the notes, the general must be the same type as the army commander in their own army's list but cannot be legendary.

Usually this results in 1-3 UGs being compulsory and you having full flexibility on the rest.

Where an **internal ally** is allowed, and no contingent is specified they must conform to the following rules:

1. Each internal ally must be a minimum of 2 and a maximum of 4 UGs.
2. The total number of troops taken of each type in the entire army must not exceed the maxima for that troop type.
3. They must take enough UGs to get them to at least 50% of the minimums in the list if there is enough allowance for a UG after the core army itself has taken the minimum. For example: An army has 1-4 cavalry (UG size 1,2) and 6-10 spearmen (UG size 2,3) as compulsory troops with 2 internal allies. The core army must take 2 cavalry and at least 6 spearmen. The first ally must take 1 cavalry and at least 3 spearmen. The second ally must take 1 cavalry but cannot take the spearmen as this would exceed the 10 spearmen limit for the army.

4. If a list requires a proportion of a troop type to be upgraded or regraded, then the army as a whole must comply with this requirement. Internal allies do not have to comply these requirements. For example:  $\frac{1}{4}$  to  $\frac{3}{4}$  of Turcomans must be upgraded from Experienced to Skilled shooting. An internal ally might have all Experienced as long as the army as a whole has  $\frac{1}{4}$  to  $\frac{3}{4}$  Skilled.
5. They can thereafter take any troops up to the maximum to create the rest of the allied contingent.

Usually this results in 1-3 UGs being compulsory and you having full flexibility on the rest.

As a courtesy to your opponent when you deploy your troops, you should describe each UG fully; type, training, quality, protection, melee weaponry, shooting skill and weaponry, characteristics, and which ally if appropriate. You should also explain how any unusual troop types in your army function and any special rules including Stakes, Caltrops, Barricades and Obstacles and troop types such as Battle Wagons.

The easiest way to calculate points is to use the downloadable on-line army builder at [www.mortem-et-gloriam.co.uk](http://www.mortem-et-gloriam.co.uk). Use this and all you do is use drop downs for the troop classifications and it does all the work for you. For those who prefer pen and paper, or who want to doodle some approximate designs before loading an army up, we have provided the points values with the lists. If a discrepancy exists in the points values between these lists and the army builder, then the army builder has the correct value.

## FRIENDLY AND SCENARIO GAMES

Feel free to vary the troop classifications for friendly and scenario games. An interesting aspect of scenario games can be to see what the effect is from representing troops in a different manner.

# PACTO ARMY LISTS

## CALCULATING POINTS

Army points are calculated as follows:

### GENERALS - PACTO

| Type of general | Army Commander |             | Sub-general  |             | Ally general |             |
|-----------------|----------------|-------------|--------------|-------------|--------------|-------------|
|                 | Professional   | Instinctive | Professional | Instinctive | Professional | Instinctive |
| Legendary       | 640            | 560         | n/a          | n/a         | 320          | 280         |
| Talented        | 440            | 360         | 340          | 280         | 260          | 240         |
| Competent       | 280            | 220         | 240          | 180         | 120          | 100         |
| Mediocre        | 100            | 0           | 160          | 100         | 40           | 20          |

### CAMPS

Camps are not included in Pacto games.

### UGs

For each UG multiply the cost shown in the list (adjusting for any optional characteristics) by the number of bases.

### NOTES

1. Points values for skirmishers in Pacto are greater than in Maximus as SuGs shoot at full effect with only two ranks.
2. For further details on how points are calculated visit the Mortem et Gloriam website.

This army must always be the invader (unless fighting another that must invade!). Roll the dice to choose invader/defender as normal as a strategic intercept is still possible.  
After 630 CE all foot can be dismountable, riding on camels.  
This army may use Feigned Flight.

A Viking army must either be a raider (any date), in England (from 867 to 927 and 937 to 954 CE), in Ireland (from 853 to 900 CE), or in Normandy (from 911 to 986 CE). Raiders must always be the invader (unless fighting another that must invade!). Roll the dice to choose invader/defender as normal as a strategic intercept is still possible.

LIST CHARACTERISTIC: Shower Shooting. Cancels their opponent’s general claim for +1 vs non-charging cavalry who shot. If not running away calculate slowing effect of fire as normal but then add a further 1BW to the slowing effect for every S result on the dice. Loose cavalry may not skirmish but may run away.

LIST CHARACTERISTIC: Shower Shooting. Cancels their opponent’s general claim for +1 vs non-charging cavalry who shot. If not running away calculate slowing effect of fire as normal but then add a further 1BW to the slowing effect for every S result on the dice. Loose cavalry may not skirmish but may run away.
